to govern their own roads and regulate the running of automobiles. He because the running of automobiles was rethe running of automobiles. He be-lieved that the bill was what was re-quired and that the committee would ex-press the sentiment of their constitu-

press the sentiment of their constituents by passing it.

Mr. Porter of Wilmington raised the question of the right of towns to close their roads to automobiles, as bill No. 3 asked. In reply the chairman announced that the committee was awaiting an opinion from the attorney general on that subject.

Joseph Battell of Middlebury favored bill three, saying that he believed that it met the requirements of our wants, because founded on the right principles for Vermont. He believed that the town was the proper authority to decide which roads if any should be used by the automobilists, and hoped the bill would pass.

an antagonist of antomobiles, but a sufferer from their presence. He knew it was particularly dangerous to drive a young horse on our narrow country roads, believed that automobiles should be excluded from such roads. He believed in giving automobiles use of the main highways and our broad thorough-

tomobiles had their rights, but that they should be restricted by law and held in control.
